

Art Unit: 2826

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1,2,5,7,9-11,13,14,16,18-21,24,26,28,29,43 and 45 are allowed over the references of record for the reasons set forth in Applicants' 3/12/08 remarks. It is noted that each independent claim has been amended to require silicon nitride dots (not films or regions) whose surface portions are higher in nitrogen concentration than central portions of said dots. It is noted that Applicants take the view that one of skill in the art would have considered excessive nitrogen in an SiN dot to be detrimental to that dot's charge-trapping ability.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
